Experiência

RETAIL4PEOPLE
Desenvolvedor de sistemas Java
outubro de 2022 - Present (3 meses)
Porto, Portugal

IBTech IT Solutions
2 anos 3 meses

Senior Developer PHP, JAVA, C#, NodeJS
outubro de 2020 - Present (2 anos 3 meses)
Jaraguá do sul, Santa Catarina, Brasil

I work as a senior developer with a greater focus on the backend, responsible
for planning and creating new services. Working on the company's main
products for B2B platforms, using PHP, JAVA, C# and NodeJS, Docker,
MariaDB and Postgres database technologies.

It is part of my day to day to ensure the quality of the code with good practices
and also the availability and scalability of services.

Senior Developer PHP, JAVA, C#, NodeJS | Product Owner
outubro de 2021 - setembro de 2022 (1 ano)
Jaraguá do sul, Santa Catarina, Brasil

Along with the developer work already done, I also act as Product Owner of
the B2B tool.

As P.O I work in the construction, improvement and maintainer of the team's Backlog, coordinating and managing the Sprints planning meetings, I follow the Product Backlog items to achieve the stipulated goals, optimizing the value of the work delivered by the development team, ensuring the product delivery quality.
